Figure 1. Our model exhibits impressive generalization ability across extensive unseen scenes. **Left two columns:** COCO [36]. **Middle two:** SA-1B [27] (a hold-out unseen set). **Right two:** photos captured by ourselves. Our model works robustly in low-light environments (1st and 3rd column), complex scenes (2nd and 5th column), foggy weather (5th column), and ultra-remote distance (5th and 6th column), *etc.*
